

Strategic Peer Networks

SPN

Strategic Peer Networks are peer mentoring communities for Christian leaders; encouraging and equipping them in their character and ministry development, so that they would effectively lead their churches or ministries to be transformed by Christ and transforming their world. What we call these communities is not as important as their key functions, which are...

Belong

Tribe, community, home, support, nurture, care, safety, accountability

Become

Spiritual formation, peer discipleship, transformation, professional development

Beyond

Mission, collaboration, mutual coaching, partnership for multiplication

TRANSFORM

Belong

- Are we transparent and honest with each other? Where is sin lurking at my door? Do we confess to one another?*
- Am I leaning on these others to share my burdens with?*
- Do I really know how this other person is doing emotionally, relationally, physically, spiritually?*
- Do we have fun together? How do we provide safety for each other?*

Become

- How are we becoming aware and a part of one another's journey of discipleship?*
- How are we challenging one another to develop ourselves as servants and leaders?*
- Are we truly sharpening one another as well as supporting each other?*

Beyond

- How might our group together serve the larger purposes of Christ in the world?*
- How can we serve and assist one another in our unique places of ministry by sharing our strengths?*
- How might we partner together to see the gospel / church multiplied locally, regionally, globally?*
